If a child is working 'below' the overall standard of the Key Stage or has Special Educational Needs, their report may look slightly different.

## **English Reading, Spelling, Grammar and Maths**

Results will be reported as a scaled score for each subject. A scaled score is created from the number of marks a child scores in a particular test. At KS2, the range of scaled scores is 80 to 120. A scaled score:

- below 100 means that a child may need more support to help them reach the expected standard
- of 100 or more means that a child is working at, or above, the expected standard for the key stage

## **English Writing and Science**

For English writing and Science, a judgement is made about a child's attainment based on teacher assessment. For English writing, the judgement shows if a pupil is:

- working towards the expected standard
- working at the expected standard
- working at greater depth within the expected standard

For Science, the judgement shows if a pupil is:

- has not met the expected standard
- is working at the expected standard

*Do not worry if your child is not working at the expected standard.*

The results will help teachers identify where your child may need extra help. If you have any questions about your child's results and what support they might need in secondary school, you should speak to their teacher.
